

RS485 communications module for KSA702/5 control panels

KAL785

The KAL785 RS485 expander allows for an easy upgrade to the KSA702 and KSA705 analogue addressable fire panels. Each module adds an additional industry standard RS485 communication port to the panel. This port could be used for communications with other network nodes in the fire panel network.

Specifications

Number of ports	1
Communications medium	RS485
Technical specifications	
Maximum cable length	1200 m
Communication speed	9600 baud
Cable	CAT5 - twisted with screen
Termination resistance	150 Ohm
